The Ministry of Science and Technology allocations can be found here.

In comparison to some other Ministries related to science and technology, the actual total expenditure of the Ministry of Science and Technology has remained relatively low (just 4% of the total)

Our analysis shows the Ministry of Science and Technology allocated capital expenditures to several other Ministries for a variety of purposes.

The segment-wise allocations for the three departments indicate that there is a focus on both capital and revenue expenditures across departments distributed by the Union Government.

The graph shows the allocation across departments, likely indicating a split related to operational expenses of scientific facilities, programs, and human resources.

This graph shows the actual total expenditure of the Ministry of Science and Technology has remained relatively low (just 4% of the total)

The graph shows the allocation across departments, likely indicating a split related to operational expenses of scientific facilities, programs, and human resources.

Let's now examine the capital and revenue expenditure allocations of the Department of Science and Technology for three years, with these two sectors often considered on a year-by-year basis.

The segment-wise allocations for the three departments indicate that there is a focus on both capital and revenue expenditures across departments distributed by the Union Government.

MINISTRY OF SCIENCE AND TECHNOLOGY’s capital expenditure allocations can be found here.

This graph shows the actual total expenditure of the Ministry of Science and Technology has remained relatively low (just 4% of the total)

The segment-wise allocations for the three departments indicate that there is a focus on both capital and revenue expenditures across departments distributed by the Union Government.

This graph shows the actual total expenditure of the Ministry of Science and Technology has remained relatively low (just 4% of the total)

The segment-wise allocations for the three departments indicate that there is a focus on both capital and revenue expenditures across departments distributed by the Union Government.

This graph shows the actual total expenditure of the Ministry of Science and Technology has remained relatively low (just 4% of the total)

The segment-wise allocations for the three departments indicate that there is a focus on both capital and revenue expenditures across departments distributed by the Union Government.

This graph shows the actual total expenditure of the Ministry of Science and Technology has remained relatively low (just 4% of the total)
