Celebrating Innovations in Life Sciences

The Federation of Asian Biotech Associations (FABA) invites applications for the prestigious "Dr. Yellapragada Subbarow FABA Young Innovator Award 2024 sponsored by NATCO Pharma". This award, honored with an unrestricted research grant of Rs. 5,00,000, recognizes and celebrates young scientists under 35 years who have made innovative contributions in drug discovery or the translation of research into impactful prototypes/products in biotechnology.

Dr. Yellapragada Subbarow's contributions to healthcare have been transformative. His relentless pursuit to understand and combat tropical sprue led him to the discovery of folic acid as a remedy for this debilitating disease. His groundbreaking work didn't stop there; Dr. Subbarow unraveled the role of adenosine triphosphate (ATP) as the cellular energy currency. He was instrumental in the development of many life-saving drugs. His pioneering efforts in developing methotrexate, a cornerstone in cancer treatment, and diethylcarbamazine (DEC), the only effective treatment for filariasis, have left an indelible mark on medical science. These innovations not only addressed immediate health challenges but have continued to save millions of lives globally. The "FABA Young Innovator Award" named in his honor inspires the next generation of scientists to pursue fearless and impactful research, embodying Dr. Subbarow's relentless innovative spirit.

Who Can Apply?

- Young scientists under the age of 35 years as of 15th July 2024.
- Innovators with outstanding contributions evidenced by peer-reviewed publications, patents, or developed prototypes/products/processes.

How to Apply?

- Submit a 1-2 page describing your innovation, its development, application, and impact, as an online application, following the provided format.

Why Apply?

- Win a cash prize of Rs. 5,00,000 to further your research.
- Gain national recognition and network with industry leaders
- Present your innovation to potential collaborators & investors.

Important Dates:

- Nomination Deadline: 15th July 2024
- Finalists Announced: 10th August 2024
- Award Ceremony: 18th August 2024

DR. YELLAPRAGADA SUBBAROW GEM AWARD FOR DOCTORAL STUDENTS

Sponsored by

www.govincapital.com

Celebrating Innovations in Life Sciences

The Federation of Asian Biotech Associations (FABA) invites applications for the prestigious "Dr. Yellapragada Subbarow GEM (Govin Entrepreneurship Management) Award" for Doctoral Students in Life Sciences. This award stands as a mark of excellence for outstanding doctoral students who excel in their scientific work with potential for significant societal impact. We encourage applications that demonstrate basic and applied research with the potential or demonstrated utility for addressing unmet needs as evidenced by peer-reviewed scientific publications, patents or feasibility product studies.

Dr. Yellapragada Subbarow's contributions to healthcare have been transformative. His relentless pursuit to understand and combat tropical sprue led him to the discovery of folic acid as a remedy for this debilitating disease. His groundbreaking work didn't stop there; Dr. Subbarow unraveled the role of adenosine triphosphate (ATP) as the cellular energy currency. Who Can Apply and How to Apply?

1. Students pursuing Ph.D. or those who have submitted their thesis or those who received Ph.D. award (not later than 6 months) are eligible to apply.
2. Applicants must include an endorsement letter from their Ph.D. supervisor or institutional heads towards Ph.D. registration/thesis submission/award.
3. Submit a 1-2 page summary of your innovative discoveries as an online application, following the provided format.

Why Apply?

- Win a cash prize of Rs. 2,00,000 to further your research.
- Gain national recognition and network with industry leaders.
- Present your innovation to potential collaborators & investors.
